

Jorge Lima is Head of R&D and Vice-Director at Ipatimup. He is also Associate Researcher at Ipatimup-i3S and Affiliated Professor at FMUP. Jorge's research focuses on understanding the oncogenic properties and biomarkers of clinical relevance in adult and paediatric brain tumours. Jorge's research contributed to understand the role played by IDH and TERTp mutations, identify biomarkers of therapy resistance, test novel delivery methods and investigate the metabolic features of stem-like cells. Jorge is currently PI of 5 projects, 4 of them specifically dedicated to CNST. He has supervised several Msc and PhD students to completion, and he is involved in several teaching activities. Jorge is a member of the board in ASPIC (Portuguese Association for Cancer Research), coordinator of the Paediatric Cancer Working Group in the National Cancer Hub (Portugal) and integrates the Paediatric Oncology Tumour Board at CHUSJ and IPO-Lisboa. He has co-authored >40 peer-reviewed publications, with >3000 citations and a H-index of 23
